Profile

B.Tech Computer Science and Engineering (Data Science) student at Ballari Institute of Technology and Management with an interest in software development, programming, and data science. Familiar with C, Python, and Java, with a strong interest in developing practical projects and improving technical skills.

Education

B.Tech – Computer Science and Engineering (Data Science)	2025 – 2029
Ballari Institute of Technology and Management (BITM)	CGPA: 8.0
Class XII / PUC	70%
Class X	71%

Technical Skills

Programming Languages: C, Python, Java

Core Skills: Problem Solving, Programming Fundamentals, Data Science Basics

Projects

House Price Prediction

- Developed a beginner-friendly machine learning project to predict house prices using property-related features.
- Worked with Python and basic data analysis and machine learning concepts.

Hand Gesture Control System

- Developed a computer-vision based system to control computer actions using hand gestures.
- Explored Python, OpenCV, MediaPipe, NumPy and PyAutoGUI.

Library Management System in C

- Designed a C-based library management system for managing books and library records.
- Applied C programming concepts such as functions, arrays, structures and file handling.

Academic Interests

Data Science, Artificial Intelligence, Software Development, Machine Learning, Problem Solving

Languages

English — Kannada — Hindi

Additional

- Active participation in academic projects and technical activities.
- Interested in developing practical software and data-science projects.
